

Students Using Curriculum Content to Ensure Sustained Success

The Texas SUCCESS Initiative provides state-funded access to interactive mathematics and reading programs for Texas public school students in grades 3-8, Algebra I, and English I & II.

These online programs support students at all skill levels and, most importantly, encourage and enable progress and growth as students move through the instructional activities.

English I & II

Edgenuity Pathblazer

6-8 Reading

Istation

3-5 Reading (English)
3 Reading (Spanish)

Think Through Math

3-5, 6-8, & Algebra I
